

Project Experience

Project Title: Etim Asasa Development Project

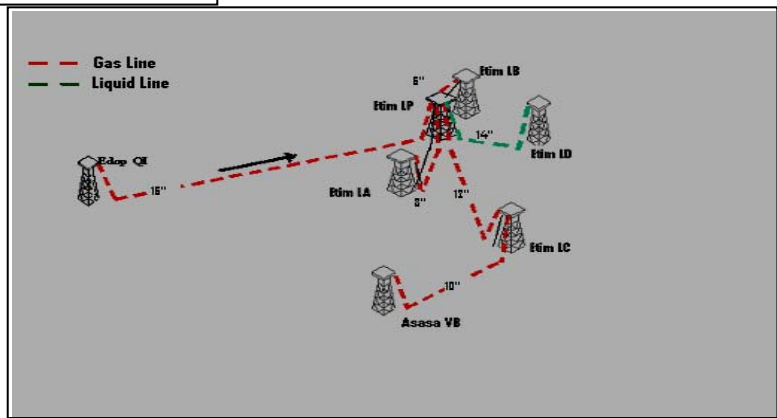

Client: Exxon Mobil/DeltaAfrik

Scope: Detailed Engineering Design

Date: Jan 2007 - May 2007

Field Location: Etim & Asasa Fields,

Man Hours: 11,995

PROJECT DESCRIPTION

Mobil Producing Nigeria Unlimited (MPN) operates groups of wellhead platforms in Etim & Asasa Fields (OML-67). The scope of this project covers the following:

- Multiphase pipeline from Etim D well to Etim PP
- Gas injection pipelines from Edop GIP to Etim PP, Etim C, Etim A and Asasa B
- Associated Tie-ins and modification work required at the Edop GIP, Etim PP, Etim PP and wellhead platforms Etim A, B, C & D and Asasa B

SEAMETRIC SCOPE

Seametric involvement on the project as a Subcontractor to DeltaAfrik includes provision of design/office facilities, ICT and personnel support to the project. The project team was based in Seametric's Ikoyi office.
